

SEVERAL BILLS INTRODUCED IN THE
UPPER CHAMBER.

SIGNAL SERVICE REPORT:

"Fair, warmer weather," HAZEN.
The small-pox has made its appearance at Chicago.

SIXTY-THREE deaths were reported at Louisville last week.

COLONEL H. W. ROGERS, the Deputy United States Marshal who was shot in Harlan County some weeks ago, is reported to be sinking fast, and his recovery is doubtful.

The condition of Henry Watterson, the Louisville journalist, was somewhat better at 6 o'clock last evening. His illness is a serious one and the crisis will not be passed for several days.

JOHN B. MAXXIE, assignee of Archbishop Purcell, languishes behind the bars at Cincinnati to answer the charge of embezzling \$350,000 of that estate. His bond has been placed at \$110,000.

We have been confidentially informed by a friend that the National Alliance has been "plagiarizing" from the Washington Open House Programme. Our friend says that the alliance has "appropriated" every one of the eighteen jokes and funny things that were published in the Programme last Monday.

A BILL will be introduced in the Legislature in a few days that has for its object the taxation of property at its cash value. The bill is an important one, and, it is thought, will increase the assessed value of property in this state to \$600,000,000. The BULLETIN has always claimed that this was the only proper and just method of taxation. Tax the property at its cash value.

In our advertising department, sixteenth page, will be found the announcement of the candidacy of Judge S. S. Savage, of Ashland, for a seat in Congress from this, the Ninth district. Judge Savage, whom we have known since his boyhood, is every way competent to fill the position, and while we take no interest in contests of this character, it gives us pleasure to bear our personal testimony to the high character and eminent fitness of Judge Savage to serve faithfully and well the people of the district. He is young, vigorous and capable.—[Cattaraugus Central Methodist.]

"A CRIT between Mr. Huntington and others, involving the right of way of the Mayville & Erie Street Road, which has been pending for several years, was decided last week in favor of the latter. This decision is an additional confidence in the early completion of the road, as it is the only one of its kind in the state. Mr. Huntington, a friend of the Mayville & Erie Street Road, was in attendance the other day, that the road will surely be built during the present year. It is a fine indication that no more in favor of railroads, we are badly bored."—[Cattaraugus Central Methodist.]

Our erstwhile contemporary is perhaps a little "too previous" in the above statement. The suit referred to is no doubt the same one that has been pending for several years. The decisions in the lower courts have all been in favor of Mr. Huntington, and the case was finally taken to the U. S. Supreme Court where it was argued some two weeks ago. A gentleman, who recently returned from Washington, D. C., informs the BULLETIN that the case has been taken under advisement by the court and the decision would not be rendered until some time next month. It is the opinion that the case will be decided in Mr. Huntington's favor.

A BILL to be introduced in the Legislature to provide for the punishment, with not less than ten nor more than thirty-nine stripes, of a certain class of thieves, as well as white-slaves. The following persons are included: "Persons guilty of the larceny of money or goods or chattels of less value than \$25; persons who feloniously steal from a church, court house or other public building goods and chattels of less value than \$25, and any person who steals a hog of less value than \$10. The Sheriff must execute the judgment publicly, and the stripes shall be well-laid upon the bare back of the offender. If the Sheriff fails to execute the judgment strictly he shall be fined not less than \$200 nor more than \$1,000, and shall forfeit his office."

It is hardly necessary to add that there is not much likelihood of the bill becoming a law. If some other punishment can't be found for such criminals, then they had better be turned loose. There is but one class of persons—if there is any at all—for whom the lash is a proper punishment, and that is the wife-beater.

From the Home of "Aronnaba."
Woodbury, N. J., Sept. 18, 1883.
Dear Sir:—I have now given you a "Aronnaba" during the past three years an occasion required. As a remedy for liver affections, dyspepsia and malarial fever, I do not know its equal. It does all you claim for it, which can be said of few, if any, other proprietary medicines. I most cheerfully recommend it to all afflicted with either of the above diseases, feeling assured that they will receive the same benefit therefrom as I did.—(Wm. Milligan, Supt. of Public Schools. Sold by J. C. Peck & Co.)

SOCIALIST LEADERS.

WHO THEY ARE, WHAT THEY DO, AND WHENCE THEY COME.

An investigation finds them not the ignorant hitherto-called the Tory Press would make them out to be. Consider the Pope-Silver London, Feb. 17.—The pending negotiations between the government and the Socialist leaders, and the announcement of another mass meeting of workmen in Hyde Park next Sunday has caused many inquiries as to the personal character of these leaders. It is found, to the surprise of many people here, that they are not at all the ignorant blunderers they are represented to be by the Tory press, but are men of intelligence, ability and character. Henry Hyndman, president of the democratic federation, is a well known writer, a good orator and a man of stainless private life.

Champion is the son of a general officer in the Anglo-Indian army. He served with distinction as a subaltern in the artillery in several of the operations of the British army in Africa, but finally sold out his commission and left the army in disgust at the middle of the Egyptian campaign by the Gladstone government. He then visited America, where he became greatly impressed with the works of Henry George. He earnestly espoused the doctrine of the propagandists, and returning to London threw himself heart and soul into the social democratic movement. He is still a young man, but is not unduly devoted. Burns is a skilled engineer, who has educated himself. He makes good, straightforward speeches at the meetings of the Amalgamated society of engineers, but is apt to become intemperate in his language when speaking in public. He has great influence over workmen. Williams was formerly a deck hand. Some time ago he organized a company on the co-operative plan for the purpose of cleaning windows. He has conducted the business of the company with much success, his operations being chiefly confined to the ornamental residential district. He claims any participation in the window smashing which prevailed in the west end, but does not admit the absurdity of his assisting to destroy the property of his customers.

Conspiracy Unearthed.
VIENNA, Feb. 17.—A widespread conspiracy to depose King Milan and to place Prince Karagoritch upon the throne of Serbia, has been discovered at Belgrade; many arrests have been made. The plot to overthrow the Obrenovitch dynasty and restore the Karagoritchs, has been long fostered almost exclusively by the czar of Russia and by Prince Nicola of Montenegro, who is the father-in-law of the pretender. The movement contemplated the future union of Serbia and Montenegro, the eventual absorption of Bosnia and Herzegovina. This would counterbalance the recent territorial aggrandizement of Bulgaria and make a strong slavonic state dominating the western half of the Balkan peninsula.

The Pope and Islam.
LONDON, Feb. 17.—The Times' Rome dispatch says the Vatican has not yet decided upon the course it will pursue in regard to Prince Ferdinand's project of Russian ecclesiastical union, but it is likely to accept it. The Archbishop of Vienna has abandoned his previous intention to insist in compliance with a general desire among the clergy and lay of his see that he assume immediate possession of his office.

Silver Conference.
LONDON, Feb. 17.—The London chamber of commerce has invited a conference of commercial representatives on the silver question. Twenty-two of the provincial chambers of commerce have already signified their intention to send delegates. The conference will be held in London but the date has not yet been fixed.

The Congo Loan.
BRUSSELS, Feb. 17.—The new Congo loan will be issued in twenty franc shares, bearing no interest. Holders of the shares will be reimbursed for a period of seventy-five years from the proceeds of annual drawings, due notice of the occurrence of which will be given each year.

Queen and Castle.
LONDON, Feb. 17.—Queen Victoria has returned from Calcutta and resumed her residence at Windsor castle.

AGRICULTURAL.

The Sixth National Convention in Session in New York.

New York, Feb. 17.—The sixth national agricultural convention of the American Agricultural Association met in the Grand Hotel today.

President J. H. Reed made the opening address and was followed by the Hon. A. J. Caldwell, of Tennessee, who addressed the delegates on the subject "The Signal Service." The afternoon session will be taken up with the appointment of committees and routine business. To-morrow an important session will be held when the governor of the state and other prominent gentlemen are expected to be present.

The topics under consideration will be discussed and as the subject is of general importance a large attendance is looked for.

COLUMBUS CHATTER.

The Ohio Supreme Court—The House and Eight Hour System.

COLUMBUS, O., Feb. 17.—The supreme court dissipated everybody by not rendering a decision in the case of the Cincinnati police commissioners. Their decision will be rendered Thursday morning.

Mr. Haley's bill providing for the eight-hour system came up for discussion and called out a lively discussion. Mr. McBride offered an amendment providing that any firm or corporation employing or permitting its male laborers (except on a farm) to work more than eight hours in a day except in a case of danger to life or property, should be fined not less than \$100 and not more than \$1,000. No such amendment was called out by this, but the bill and the pending amendment were postponed until next Tuesday.

Fertilizer Law, Feb. 17.—John B. Gough's condition is unchanged. The physicians are awaiting the action of the medicine prescribed, and as soon as that point is reached some more radical action is reported to be expected. Henry Gough, of Worcester, Mass., a brother of the famous lecturer, has been summoned to this city.

FATAL FLAMES.

A Canadian Hotel Without Fire Escapes Meets its Fate.

MONTREAL, Feb. 17.—Details of a shocking disaster by fire at St. George, Ont., has reached the city. Several houses were destroyed, two persons known to be lost, and many persons were more or less injured. The Canning house, a four-story building, was discovered in flames. The retreat of the people in their rooms was cut off and there were no ladders of sufficient length to reach them.

A V. Hart fell to the ground and was badly injured internally.

A. B. Baxter was seriously burned.

Stephen Case, 61, who had been confined to his room by erysipelas, appeared at a third story window, gasping for help. Efforts to reach him were vain and the poor fellow went down with the walls of the building.

The walls toppled over upon the store and dwellings of W. A. Howell. Several persons were buried in the debris, and David Sturges was crushed and his legs were paralyzed.

Joseph Armstrong, of Brantford, was killed. His charred remains were removed from the ruins.

The flames spread until Christie Brothers store, the Meakin hall, the telephone exchange, William Hickson's furniture house, and F. H. H. and F. H. Fleming's drug store had been destroyed. The body of Case was found during the afternoon. Fifty thousand dollars will cover the loss.

Another Hotel.

PITTSBURGH, Feb. 17.—Sparburg was visited by a disastrous fire shortly after midnight. Flames were discovered issuing from the Chicago house, a three-story brick boarding house. A message was sent to Allegheny City for fire engines, but long before they arrived the building was burned to the ground, together with three frame buildings immediately adjoining. There were fifteen people asleep in the building, but it is believed all have escaped except George Altmeyer, one of the proprietors. The inmates were awakened by the smoke, some of them assuringly escaping salvation. The total loss will reach about \$3,000.

An Old Man Clubbed to Death.

TIME BLUFF, Ark., Feb. 17.—A negro named George Gray conspired himself by the side of a road leading out from town, along which he knew an old man named Vincent would soon pass. When Vincent came opposite the ambush, the negro jumped out and beat the old man to death with a club, and then robbed him. Vincent's son who witnessed the murder, gave the alarm, and a posse soon had the murderer in jail, whither a large crowd of infuriated citizens flocked, and demanded the life of the prisoner. The mob was soon quelled, however, and there are no fears now that Gray will be lynched.

RIVER NEWS.

Rising here.
The Kanawha and Big Sandy are both falling.
The Lotts A. Shierley is overdue from Cincinnati.

The Boston will pass down to-morrow morning for Cincinnati.

Falling at Pittsburgh and the shipments of coal from that place will be increased on this rise.

The Telegraph for Pomeroy and the Boone for Charleston are advertised to leave Cincinnati this evening.

The Bonanza was the only boat that passed last night. A dispatch from Capt. Moore this morning said the Bonanza would leave Portsmouth on time to-day.

The Pittsburg left reached here yesterday afternoon and has been passing ever since. It is not as heavy as was expected, but the worst may not have yet arrived.

Cheerful, best health food—Cal-hou's.

MR. JOHN LAYTON, of Lewis County, and Miss Bessie Littlejohn, of this county, will be married this evening at the Christian Church.

This audience at the opera house last night was not near what the Tourists deserved, after the satisfactory performance they gave on Monday night.

MADAME FRY'S Concert Company gave a most enjoyable concert last evening. It is a very talented organization. Miss Fry, the contralto, is a singer of remarkable spirit.—(Boston Post.)

DR. ERNE TOURNER, director of the New England Conservatory, Boston, writes: "Madam Fry and her daughters have unusual musical talent, and I cheerfully commend them to the public."

NOTWITHSTANDING the fact that "winter still lingers in the lap of spring," the "festive fly" has made his appearance, and can now be seen almost daily, hugging the warm side of a sunny window.

"My son, when you go to the city, get you a bicycle, some tight pants, some tooth-pick shoes, and a stender cane, and with all your gettings don't fail to get a bottle of Salvation Oil, for 'I ride (you know) goeth before a fall.'"

There were all the evidences of a coming storm; the very air vibrated with the odor of danger! but when the kind father took from his pocket a bottle of Dr. Bull's Cough Syrup then came a calm, for the baby had the croup and would not get well.

True friends of Dr. Henry Marsh, formerly of this neighborhood, will be glad to learn that he has been elected City Physician and Health Officer at Winchester, Ky. The vote stood six to one in his favor against one of the older physicians of that place.

Having used Tongaline extensively, I am cordially recommending it for cases of facial neuralgia, where I have found it to produce the desired results in every instance, when all other remedies have previously failed.—F. E. Lord, M. D., San Francisco, Cal.

MR. J. B. BRADLEY, of Cabin Creek, has the thanks of the BULLETIN for a copy of the Mayville Monitor, of September 21, 1877. Hon. R. H. Stanton was editor and proprietor of the Monitor at that time. It affords much interesting reading to the rising generation.

If a well poisoned, was to be those who drink therat. It is worse to poison the fountain of life, for one's self and for posterity. Often by carelessness, or misfortune, or inheritance, this has been done. Ayer's Sarsaparilla cleanses the blood, and restores health.

HADUCK'S Reed and Cornet Band have kindly consented to help the Baptist choir kindly in the good cause, and will render some of their choicest selections at the opera house Saturday night. Their paper will not be included in the regular programme by the Madame Fry Concert Company.

Subscribers who fail to receive their paper promptly will always confer a favor by notifying this office of the fact at once. The delivery of the BULLETIN in some parts of the city was placed in the hands of new carriers this week, and if subscribers have failed to receive their paper they will attribute it to this fact.

NEAR Owingsville, the colored people are greatly incensed over an outrage committed upon a seven-year-old girl by George Patton. Patton is a big, burly negro, and doesn't deny committing the crime, but offers as an excuse that he was drunk. This victim is the daughter of respectable colored people. Patton has been held for trial in the Circuit Court and will probably get a life sentence.

LETTERS received very recently from Ashland, Ky., by some of our citizens, state that the interest in the Mayville and Big Sandy railroad is increasing, and the prospects up there are more favorable for the early construction of the line. If the citizens along the route will only grant the right of way for a reasonable consideration at once, it will soon be known then whether or not Mr. Huntington intends to build the road. He has given several times the horses intended to complete it this year if the right of way can be secured without too great an outlay. A railroad along this side of the river would certainly tend to develop the mineral resources of Eastern and Northeastern Kentucky, and when the 12,000 square miles of coal land in that section of our State is given access to the outside world, it will result in wonderful benefits not alone to that section, but to all this part of the "great old Commonwealth" as well as the rest of the country. If, no other, a liberal spirit should be manifested towards the enterprise by every one. Instances for instance can be shown where farmers along the route have granted the right of way over their land, and the only consideration asked from the company was that the road should be properly fenced to keep stock from being killed. These farmers realize that a railroad along this side of the river will vastly increase the value of their land, and they are anxious to see it constructed. Why a few should take advantage of the circumstances and seek to "bleed" the railroad company for more than the right of way is reasonably worth, is one of the things that the members of the company and friends of the enterprise do not like. This spirit should be thrown aside for more liberal views.

Bullishness was about the only feature of the stock market this morning. At the opening there was a slight pressure to sell, resulting in a decline of 1/4 to 1/2 per cent, but after the first half hour the market rallied. The wheat market was quiet until midday, when an active buying of 500,000 bushels of the hard red winter wheat was made at the best figure of 80 cents.

The advance in the price of wheat was due to the fact that the market was short of wheat, and the advance was a result of the fact that the market was short of wheat.
